To whom it may concern,

I'm writing to recommend **Christian Matanzo** for the Lehman student council. I had Christian as a student in my 9th grade computer science class two years ago and for Programming in Python again this year. I've witnessed how Christian has the ability to be a great student. In 9th grade he came to class, participated regularly, and earned a 97 in the class. This year, Christian has fallen behind somewhat, but he's working hard to come to class consistently and bring his grade up. I believe that his participation in student government will be a great opportunity for him, and also good for our school and student body.

Best,
Dr. O'Brien
